Keyboard layers

Karabiner-Elements · symbols on Tab, numbers on Right Option, Esc/Ctrl on Caps Lock

Brackets · Operators · Other

Hold Tab → symbol layer

Tap Tab alone = Tab · small letter = key you press

Hold Right Option → numbers

Top number row not needed

Tap / hold keys

	Tap	Hold
CAPS LOCK	**Escape**	**Control**
TAB	**Tab**	**Symbol layer**

UK (British) input source: Tab + E sends ⌥3 so it still types #. Caps Lock is optional on every layer key, so shouted caps won't break the layer.
